

Hello ,

Did I hear you ask is January drawing to a close? Oh yes, it is. January was our month of launching off. LR space was packed with the many inspirational vibes to set us on our sure pathway to making a difference anywhere we find our selves for the rest of 2016 and beyond.

In January, we were challenged by the story of one of our emergent leaders of tomorrow **Hafeez Shaka**, the determined young man with a dream, who believes he must push every boundary to be the best he can be against all odds. **Blessing Ugbo** let us have a glimpse into her life: telling us how, she set to work and 'multi-tasked like an octopus' so she can today make a difference in the lives of many people. An action that has enabled her to receive an international award as a most compassionate and caring nurse in her hospital. **Victor C. Ujor**, an Assistant Professor of Bio-energy enlightened us with one of his most profound life lessons "that a bend in the road is not the end of the road". Furthermore, **Barrister Daniel Ogbegie**, a Lawyer keen on giving back to his community gave us the recipe of how we should all strive to maintain a high level of discipline and focus to provide leadership and steer our different ships that life has made each of us, captain of.

As February, floats in, rest assured the LR team will not let the 'ship go off course' a thousand and one reasons to succeed and tips on how others have done it will abound here. Stay in our blog-sphere and you will find out if " the sky really is the limit for man's achievements". Secondly, is success all about careers? What can portray success in other aspects of our life? We are going across to Eastern Africa to find out what ticks the boxes of some of their internationally achieving individuals. We are not stopping at that. Keep an eye on our inspiring event space to see what went on at a conference on how to be a Millionaire's Conference, held in London recently.

This second month of the year should be one where your vision for the rest of the year becomes better crystallized. It is true some evidence exists that it is the time when many persons get depressed having lost the oomph to go on with their January resolutions. However, the LR team maintains that it is not unacceptable to lose steam or zeal sometimes. What is not allowed is to lose one's zeal and then, chose not to find it. It is our choice to make: to get going and give our lives the best shot we can. It is our choice to also give others a hand and positively better mankind in our own individual ways. Hence, this February, we at the LR team will leave you with one of the most inspiring quotes of all time that sums up the fact it is important to keep at it and not loose focus or determination when the resolve to maintain our January resolutions are dwindling. Rather, we should strive to keep our balance and keep moving.....

Life is like riding a bicycle.
To keep your balance, you must
keep moving.

— Albert Einstein
